Course Overview

This course consists of a full day of didactic lectures, designed to keep the dermatologist and dermasurgeon abreast of the rapid changes occurring in the areas of dermatitis, radiotherapy & cutaneous lymphoma, vaccines, patient communication, psoriasis treatment and practice updates.

Learning Objectives

Dermatology and cutaneous surgery are increasingly complex fields of diagnostic and therapeutic techniques and procedures that require continual education over the course of a career. The Colorado Dermatologic Society sets to achieve the following objectives:

1. Review cutting edge advances in dermatology
2. Identify new dermatology diagnostic procedures
3. Be able to utilize the latest in dermatology therapeutics
4. Analyze basic science developments in dermatology
5. Implement updates on evidenced based care in dermatology
6. Develop skills in dermatology practice management

At the conclusion of the conference, the participant should be able to apply this knowledge and implement the presented changes in his or her clinical practice.

Poster Sessions

Poster sessions will be available for viewing during the breaks. If you would like to submit a poster, please send the poster abstract to stephanie@goddardassociates.com by **August 5, 2011**. Research that has been previously presented is acceptable.
